NUMBER 196

REPUBLICAN TICKET.

Selection, Tuesday, November 4, 1884

FOR PRESIDENT, JAMES C. BLAINE, OF MAINE.

FOR VICE PRESIDENT, JOHN A. LOGAN, OF ILLINOIS.

PROVISIONAL ELECTORS, C. J. J. MEYER, AT LARGE; E. A. HOSKIN, First District; W. O. STEPHENSON, Second District; D. C. VAN DYKE, Third District; JOSEPH BLAINE, Fourth District; JOHN BAKER, Fifth District; E. W. ANSTON, Sixth District; G. T. ROBERTS, Seventh District; W. M. FORD, Eighth District; C. A. WILSON, Ninth District; A. L. BROWN, Tenth District.

In the light of the latest returns Blaine will be elected.

For systematic lying there is nothing that can equal an independent paper which supports Cleveland.

Aside from giving a handsome republican majority, Ohio did another good thing—it killed off Cleveland.

General Logan's English is making the democrats very mad. That is the reason republicans love General Logan.

Colonel Vilas promised Wisconsin to Cleveland. The vote will show that Colonel Vilas is a true political prophet.

A good many things are coming to light this year. One among the many is that Mr. Schurz does not carry the German vote in his pocket.

The vote of the two great generals of the late war—Grant and Sherman—have proved reckless business men. Grant's sons failed for millions, and one of Sherman's sons has been involved in a failure of \$500,000. It takes something without a name to succeed in business.

It will appear pretty rough to the democrats that the day of national thanksgiving should be observed so soon after the democratic funeral in November, but it can't be helped. The people will feel more like giving thanks than ever because the democratic party was buried.

An Irishman attended an independent meeting not far from Boston recently. He was in the wrong place for an Irishman, but innocently he proposed three cheers for Blaine, "just to try the sentiment of the meeting." The enthusiasm was catching, and it turned out to be a very good Blaine meeting.

Three days before the Ohio election Speaker Carlisle telegraphed to the Boston Herald that a republican majority greater than 10,000 would be the most astonishing political event of recent years. Well, what does Mr. Speaker Carlisle think about it now, the republican majorities ranging from 12,216 to 17,000?

The New York Tribune prints this statement in its editorial column: "A Wisconsin wool-buyer is making contracts for wool at thirty cents per pound if Blaine is elected, and twenty-five cents per pound if Cleveland is elected. Possibly the Times or the Herald can explain the matter. The farmers out west think they understand it without explanation."

There will be one gain to Cleveland growing out of the canvass although he will be defeated. In the language of the Rochester Express, it will be the success of manufacturing him to good society in Buffalo, so that when he returns to the city to whose fame he has so long contributed, he will be able to "speak" his old associates and enjoy the advantage of going in respectable company.

The Cincinnati Commercial Gazette states that two hundred Irish American citizens were handling the republican ticket at the polls in that city, and working for it all day. They wore plain green ribbons and no other badge, and not one of them received one penny of compensation from any committee. They organized for themselves and insisted upon meeting their own expense.

Statistics show that there is more railway travel in the state of Massachusetts than in any other state in the Union. The number of passengers carried by the roads last year was 53,003,000. Pennsylvania comes next with 44,000,000, and New York third, with 41,000,000. Illinois, New Jersey and Ohio follow in the order named.

The democratic campaign in Indiana is in a queer condition. In order to try to save the state the Cincinnati Enquirer says democrats are completing measures to find out the name of every man of whom there is the slightest suspicion that he can be bribed, and then have him arrested before election day, just as if he had sold his vote.

It is pretty hard work for the democrats to settle the question of tariff so that the democratic voters can understand it. For instance, Congressman Hurd, of Ohio, democrat, was beaten because he is a free-trader. Congressman Converse, of Ohio, democrat, was beaten because he was a protectionist. Thus shows how crooked the democrats are on the question of tariff.

During the current year there have been 2,850 miles of railway built in the United States. The number of miles annually built for the past twelve years are as follows:

1873.....1,437 1874.....1,770 1875.....1,910 1876.....2,000 1877.....2,100 1878.....2,200 1879.....2,300 1880.....2,400 1881.....2,500 1882.....2,600 1883.....2,700 1884.....2,850

It will be seen that the greatest number of miles built in any one year was in 1882. The railway mileage in the United States is about 120,000.

We have heard a good deal of late about McGrooney. He has come out for

Cleveland, which is not surprising, because he is not an American. The other day he made this statement:

"I lay in a British jail; Mr. Blaine was secretary of state. Mr. Blaine went out of power, and I went out of prison."

CTO show what sort of a liar Mr. McGrooney is, the following facts are given:

He was a British office-holder, and visited British law, and therefore, was put into a British jail. Mr. Blaine "went out of power" early in December, Mr. McGrooney still remained in prison to the August following, having refused to March to return to this country, though the government offered to pay his passage. He preferred to be, as he now is, a British subject, and is doing the work of the English government in trying to prevent the election of Mr. Blaine.

THE DEMOCRATIC OUTRAGE IN CHICAGO

The county commissioners of Cook county have been compelled by public sentiment to make changes in the polling precincts in Chicago. It has already been stated in the Gazette that many of the polling places were located in the lowest alleys in the city, and that all the judges were democrats. This, of course, was most offensive to the moral sense of the community, and a change was demanded. Some improvement has been made by the changes which took place on Monday, but yet there are many polling places located in alleys and dens, and the county commissioners will not have done their full duty until the people of Chicago can deposit their ballots without going to a saloon or a place of prostitution. Common decency demands complete reform in this business, and Carter Harrison can not be absolved from responsibility in this serious matter until all the polls of Chicago are established at places where no man will be ashamed to go to cast his ballot. He seems bent on injustice and an unfair ballot that he may enhance his chances of election. The outrages contemplated by this political trickster would disgrace the worst portion of the south, and the people should never submit to them, no matter what the cost to life or limb.

THE SOUTH AND PROTECTION.

There comes from the city of Augusta, Georgia, an illustrated paper, recently printed, which contains some very significant statistics regarding the material growth of Georgia. The facts contained in that review of the business and industries of the state are the most powerful argument that can be made in favor of the republican policy of protection, and yet the fact remains that even in Georgia, the democratic rule prevails, that of crushing out the republican vote.

Now from this southern authority, what has Georgia done for itself under the splendid system of the protection afforded to home industries by the republican party? Here are some of the facts: The growth of manufacturing in Georgia since the war, and under the present tariff system, has been stupendous. For the decade ending 1870 Georgia led the whole south in the matter of manufacturing establishments being from 1850 to 1880, or over 100 per cent. The manufacturing growth of Kentucky during the same period was 50 per cent.

In the decade ending with 1880, the increase of capital in Georgia, outstripped all southern states except Kentucky and Virginia, increasing from about \$14,000,000 to \$21,000,000 in manufacturing capital and in value of products from \$37,000,000 to \$41,000,000. But this is not all. Since 1880, we are told by the statistician who has prepared this report for the Augusta Chronicle, Georgia has increased its cotton mill capital \$9,000,000. In August, 1884, it had \$18,000,000 invested in cotton manufacturing, a sum nearly equaling one-half of the southern capital employed, while the product of the Georgia mills is nearly one-half of the entire southern product. Georgia to-day has 80 mills, 784 looms, 330,130 spindles, employing 10,000 hands and consuming 100,000 bales of cotton. From June 1, 1880, to January 1, 1884, this state increased 17 looms from 473 to 784, and its spindles from 200,774 to 330,130. The additions to its cotton mills was 22.

These facts and figures show what the republican system of government has done for the south, and the people of the north, and especially for the republican party, are glad to see energy and thrift in the south. While the country was under democratic rule, the south was fifty years behind the times. Its industries were not. Of progress it had none. In education it was doing nothing. Hardly a single resource of the south was developed under the influence of democracy, and yet with this vast benefit derived from republican policy and the spirit of republican progress, the south is solid against the very policy that gave it all it has in the way of material prosperity. One of the surprising things of the canvass is that the south every time will vote against its own interests. It has done so heretofore, and will do so in this campaign.

BLAINE WILL BE ELECTED.

To one who is not blinded by partisanship the indications will satisfy him that Blaine will be elected. The verdict in Ohio, which is a pleasant prelude to November, is a conclusive indication that Blaine will sweep the north. The democrats have given up everything in the north except New Jersey, New York and Indiana, and they are not sure of carrying any one of these and therefore class them as doubtful.

New Jersey has always gone democratic except in 1872 when the republicans carried it by 14,570 majority; and in 1880 when the democrats declared the tariff was a "local issue," they got the electoral vote by a majority of only 2,010.

New York has only gone democratic twice since the republican party was born.

the first time in 1868, when it was carried by 10,000 majority by the most daring and outrageous frauds ever known at a political election in this country—when some of the democrats under the management of Tweed and Tilden cast more democratic votes than there were men, women and children in the state. Then, again, in 1876, when Tilden carried the state by 20,568. With a fair count in New York city the state is good for a republican plurality in November, of something like 20,000 or 30,000, and undoubtedly Blaine will get that. Grant's majority in 1880 was 8,690, but this year the republicans have more hope of a victory than they had then because there are many thousands of workmen in all parts of the state who have heretofore voted the democratic ticket who will now vote for Blaine and Logan. It is fairly estimated that the republican recruits from the democratic ranks will counterbalance two to one, the bolting republicans.

Indiana, which the democrats claim will be carried by them, has gone republican every time except once, since 1860. Tilden and Hendricks carried the state in 1876 by a plurality of 6,534. It was carried by the republicans four years ago by a plurality of 6,611, and previous to that time by majorities ranging from 6,000 to 21,000. This year Hendricks casts a small figure in the canvass and has less influence than he had in 1876, and against the democratic party in another direction is the hundreds of democratic workmen who are marching in Blaine and Logan clubs.

Altogether the republicans have the advantage in the campaign. They have the candidates, the principles, the intelligence, and the moral sense of the country in their favor.

ASHES OF DESOLATION.

Among Them the People of Carthage, N. Y., Bow Their Heads.

The Fire Fiend Sweeps Through Their Homes with Merciless Fury

And Ruin Marks His Course on all Ruined—Two Hundred Houses Destroyed and Terrible Distress and Desolation.

LOVELL, N. Y., Oct. 21.—The most devastating fire ever witnessed in northern New York occurred at Carthage, fifteen miles from here, in Jefferson county, Monday. The fire started at about 1 o'clock from ashes thrown from Lovell's tannery in West Carthage, setting fire to Eason's planing-mill. It then spread to Myers & Co.'s furniture and carpentry, and from there to Harvey Pratt's saw factory. From this point it crossed the river to East Carthage, catching Guyot's planing-mill. Ryther & Pringle's saw, devoted to manufacturing veneer, destroyed, involving a loss of about \$30,000. From Guyot's planing-mill the flames spread to all the houses on Spring street, reaching Mechanics, upon which most of the houses are burned. From Mechanics street the fire crossed to Church street, burning the new opera house, the Disciples' church, the Peck Street hotel, the Academy building, and all residences in that direction, reaching Main street. On Main street the Episcopal and Presbyterian churches were burned, and also the school building near them. Stephen Braum's, whose house was destroyed, lost \$2,000 in money and about \$5,000 in goods and mortgages. His residence was one of the first in the street. All the houses on School and Upper James streets, west of Main, including the Baptist church on Main, and nearly all the houses on Clinton street, are in ruins. There is also a loss in ruins.

For half a mile up Main street everything is burned. Several houses east of Main street and on West street are destroyed. During the day the fire spread, involving a greater portion of the town, and the fire could not keep up with them. At 6:30 p. m. the fire was under control, but as a stiff breeze was blowing, it was feared fresh outbreaks would occur during the night. At that hour three-fourths of the town was in ruins.

Good judges estimate that 200 houses have been burned and places the total loss at between \$200,000 and \$1,000,000. The residences burned comprise the best in the town, and there are not houses enough to shelter the inhabitants. The town was extensively engaged in manufacturing, and all these industries now lie in ashes. Should the fire spread to the business portion of the town there will not be enough buildings left to mark the once prosperous and thriving village.

Five companies from Udon, Lowell, Boonville and Watervliet were doing good service in getting the flames under control. A great portion of the furniture removed from houses afterwards took fire in the street and burned.

The horror that is being experienced in Carthage is beyond description. Families are fleeing from all portions of the town. Mothers are looking for their children. Prostrated and injured people are numerous. Families who were in comfortable circumstances are without shelter and money. The scene is a fearful one.

Serious Fire in the Woods.

CAMDEN, N. J., Oct. 21.—The forest fires in Camden, Gloucester and Atlantic counties are still burning fiercely, and great apprehension is felt for buildings in the wooded country in the region of the fires. At Blue Anchor on the line of the Philadelphia & Atlantic City railroad, another fire broke out Sunday in a large pine forest, and burned freely all day and Sunday night. A large cedar swamp near that place, belonging to Job Draddock, was also consumed. Charred leaves and twigs fell in the towns of Watervliet, Winslow, Hammon, and the other places several miles from the fire. Great destruction of property among the people of the region surrounding the fires, and all the able bodied men are out fighting the flames. In the churches prayers are being offered for rain, and unless it comes soon, the fires will reach inhabited places, and great damage and loss of life ensue.

The Ohio Election.

CHICAGO, Oct. 21.—The latest Ocean's special from Columbus, Ohio, says the latest returns show that Robinson (Republican) for secretary of state, received 51,462; Newman (Democrat), 38,075; Robinson's majority over Newman, 13,387. Robinson, for member of the board of public works, ran ahead of the balance of the ticket, and his plurality was not full short of 17,132. Johnson, for supreme court judge, follows Robinson with a plurality of 14,901. The Greenback-Labor party doubled their vote of last year, making a total vote of 4,000. The following recapitulation shows the total vote of the state:

Robinson.....301,462 Newman.....38,075 Prohibition.....8,500 Greenbackers.....4,000

Total vote cast, including 10,000 who voted by mail, is 385,037.

The above is probably as near the official vote as can be given until the vote is announced by the secretary of state.

BLAINE MEETINGS IN NEW YORK.

One at the Sub-Treasury and Another at the Battery.

New York, Oct. 21.—An early as 1 o'clock Monday afternoon Broadway was started by the throng of drums and the music of a "Blaine and Logan" march, and the head of an apparently interminable procession emerging from what is known as the "Dry Goods district," and turned into Broadway. All traffic, not only on this thoroughfare, but on the adjacent streets, was stopped. A file of muscular blue coats marched to the street, and for nearly an hour a parade of well-dressed men, distinguished by scarlet badges and carrying long canes, marched fifteen abreast and nearly 10,000 strong between crowds of spectators, who, at frequent intervals, greeted their marching appearance with cheers. Every few blocks the great canes would break out into the refrain: "Blaine! Blaine! James G. Blaine!" The procession was organized by Col. Mitchell, and each block had its own committee of the first that participated in the parade. The sidewalks were massed with thousands of people and from Broadway to William street on Wall, and from that street to the Battery, and for nearly an hour the people were so tightly that movement was impossible, while the roar of cheers was so great that the speakers could be heard but a short distance from the stand. Gen. Cleveland, William M. Everts, Cyrus W. Field, Cassius M. Yost, Henry C. Lewis and other prominent men were present, and the speakers were Secretary Graham, ex-Secretary Russell, Gen. Woodford and Sherman S. Rogers. There were three stands. The republican stand on the Battery was greatly stirred up straight where a large republican meeting was held under the auspices of the national petroleum exchange. There were many marching clubs and the new bands and neighborhood bands, beautifully illuminated and decorated. There was a great throng of Cleveland men present, however, and they kept up a constant roar of cheers until the police were obliged to interfere to clear the order so that the speakers could be heard. Gen. George W. Palmer made the principal speech.

DEMOCRATIC RALLIES.

Keeping Up the Excitement at Various Points.

WARREN, Ind., Oct. 21.—Hon. Isaac P. Gray, Democratic candidate for governor, Monday spoke to a large and enthusiastic crowd at North Manchester, this county. This was Mr. Gray's second address in Warren county during the campaign.

DECATUR, Ill., Oct. 21.—The Democrats of Macon and Christian counties held a grand rally at Blue Ridge, Monday night. There was a splendid procession. The crowd was addressed by Hon. William M. Springer and C. A. Ewing.

DECATUR, Ind., Oct. 21.—The Democratic rally here Monday was a large meeting. The crowd was estimated at 6,000. It took the procession forty minutes to pass a given point. Governor Hubbard, of Texas, and Bayless W. Hanna were the speakers. Gen. Almon addressed the crowd and grew for a few minutes in the evening.

Postal Treaty with Mexico.

WASHINGTON, Oct. 21.—The special postal convention between this country and Mexico, the execution of which has been pending for some time past, was executed Monday by Postmaster General Hamilton, on the part of the United States, and the Mexican minister, on the part of the interior department of his republic. The convention will now require ratification by the Mexican senate. It is a treaty which will greatly benefit the postal service of both countries, and will be ratified and approved there is no doubt. The new arrangement is to be effected on Jan. 1 next. The convention will provide for the exchange of postal rates and conditions will apply to mail matter for Mexico, except samples of merchandise, crates, etc., packets of which, through liability to the domestic rates, are to be restricted to twelve ounces in weight.

Taking the Veil.

PHILADELPHIA, Oct. 21.—Archbishop Ryan of Philadelphia, officiated Monday morning in the house of the Good Shepherd, West Philadelphia, in one of the most impressive services of the Roman Catholic church. Thenceforward, ladies, renounced the world, and before the congregation, and in the presence of a large congregation, dedicated themselves, by donning the white robe and veil, to the service of God. Four other young ladies donned the white robe and veil, and before the girls, when he immediately shut them.

The War of Passenger Rates.

NEW YORK, Oct. 21.—It was stated Monday that the Erie Railroad Company has lowered their fares to meet the reduced rates of the New York Central and West Shore roads. The Delaware, Lackawanna & Western road will, it is thought, be obliged to follow suit. A prominent official of the New York Central and West Shore roads reported: "You will soon see tickets selling to Chicago at \$5 each, and the end of this thing is not yet."

Fatal Result of Practical Joking.

NASHVILLE, Tenn., Oct. 21.—A negro boy while out hunting, instantly killed two little white boys near Nashville. The girls came to town to enter the boy by falling upon their knees and giving vent to all sorts of uncharitable noises. The boy became frightened and asked who was there. The only response he got was by the girls, when he immediately shut them.

Obituary.

Sidney F. Nichols died Monday evening from a complication of diseases at his residence in this city.

LEAVENWORTH, Kan., Oct. 21.—David W. Powers, aged 60 years, a widely-known cattle dealer, died Monday morning of brain fever.

The Mob Was Felled.

MEMPHIS, Tenn., Oct. 21.—A mob of masked men at Senatobia, Miss., Sunday, attempted to take Sam Franklin and Shakspeare Franklin, two negroes, from jail, and lynch them, but were prevented by Sheriff Jeff Williams and his deputy. The negroes are undergoing long terms in the penitentiary for poisoning two members of the faculty of C. Smith, near Senatobia.

The Mills Shut Down.

FALL RIVER, Mass., Oct. 21.—The shut down of the mills took effect Monday. Thirty out of the fifty-four mills are closed, and 10,000 people are idle. There is no unusual thing on the streets, or any excitement which would attract attention even from strangers.

Think They Will Pay in Full.

LOCKPORT, N. Y., Oct. 21.—The Lockport Banking association suspended payment Monday. Liabilities \$50,000. When they realize upon their securities the managers believe they will be able to pay all depositors in full.

Mr. Gough on Milk Hats.

"It would be no violation of the commandment," said John B. Gough, "if a man were to fall down and worship the milk hat, for it is not made in the likeness of anything in heaven, or on earth, or in the waters which are under the earth. Besides it beats the head, and causes the hair to fall out." Parker's Hair Balm will stop that and restore the original color to grey or faded hair. Not only a dye, but beneficial, deliciously perfumed. A perfect hair dressing. 50 cents. All druggists.

"Bozenta" as Pronounced by Eversen's.

The Opposition to Tammany.

New York, Oct. 21.—At a mass meeting of citizens, irrespective of party, held at the Academy of Music Monday evening, over which Oswald Ottendorfer presided, W. T. Grace was nominated for mayor of this city. Committees were appointed to notify Mr. Grace of his nomination by all the political organizations opposed to Tammany hall. The meeting was addressed by W. A. Cole, Mr. Ottendorfer, Rev. Howard Crosby, Hon. F. R. Coudert, and resolutions were adopted, which eulogized Mr. Grace and declared him pre-eminently fitted for reelection.

MISCELLANEOUS.

ROYAL

BAKING POWDER

Absolutely Pure.

"Baking powder never varies. A marvel of purity, softness and abundance. Purely scientific in its composition. It contains no alum, and no impurities which would make it injurious to health. It is the only baking powder that is absolutely pure."

Real Estate

COLUMB.

BLANCHARD & HALL,

(Successors of H. H. Blanchard.)

We have for sale, lease and exchange a large number of City Real Estate, Business Blocks, Residence Sites, and Rock County Farms, thus all the other real estate dealers in this city combined.

Residence lots for sale from \$500 to \$15,000.

Farms for sale from \$1,000 to \$15,000.

Any person wishing to purchase in the real estate line can save his money by consulting with us. We have the largest and best list of choice farms, and offer better inducements than can be obtained elsewhere. If you don't get the best property and bargain, it is because you did not patronize us.

Transactions between us and our patrons are strictly private.

We solicit the patronage of all persons wishing to buy or rent property. If we fail to do so, we make no charge. We show our property free of cost. If you have property for sale or want to buy property, come and see us. We are a reliable and trustworthy firm, and we will convince you that all we say is true.

Real Estate and Loan Agent, Office: Jackson & Smith's Block, Janesville, Wis.

WHEELER & STEVENS

This is the liveliest Real Estate firm ever organized in Rock County.

They have more Farm Property, More Houses and Lots,

and more unoccupied lands for sale on reasonable terms, than any other firm in Southern Wisconsin. They show buyers the property, prove titles, and take special pains to put purchasers into the best property at the lowest price.

WHEELER & STEVENS,

Office: Over the Block, Janesville, Wis. (opposite)

SHOT A CONSTABLE.

The Playful Pistol Talks in a Minnesota Town.

ST. CROIX, Minn., Oct. 21.—Sunday afternoon a shooting affray occurred five miles below this place, in which two persons were seriously injured. One of the persons, a man named Spaulding, was shot in the head, and his wife, who was standing by him, was also shot in the head. The man was killed, and the woman was seriously injured. The police are investigating the case.

Cablegrams from Switzerland report the burning of the Grand hotel at Interlaken, which is valued at \$1,000,000.

The average paying attendance at the Chicago exposition this season was in excess of 8,000 per day, realizing nearly \$1,400 daily.

Madame Boulet, of Montreal, the mother of six children, has been sentenced to the gallows for the murder of Mrs. Carlin by poison.

Rev. E. P. Aldred, of Christchurch, N.Z., has been suspended for the seduction of a domestic, there being ample evidence of his guilt.

Stephen O. Mills, lieutenant of the Twelfth Infantry, has been detailed as professor of military science at West Point, and will be in charge of the instruction of cadets at each place stopping to say a few words.

Upon leaving this city the reception at Auburn was most noticeable and Mr. Blaine spoke for a moment from a gallows decorated with the colors of the Union.

The Democratic demonstration here was very large and enthusiastic, and was addressed by Gen. Lieber of Chicago. The two parties kept up the excitement until late at night, and the glare of the torch and loud music of the brass band, uniting with the yells for Cleveland and Blaine, made a scene not to be witnessed in a century again probably.

CONDENSED NEWS.

The evidence against David I. Clark, of Milwaukee, charged with counterfeiting, consists of a railway time-table containing cuttings of bills of denominations from \$1 to \$100. An officer of the service testified that the money used was genuine, but that the accused had been manufacturing extra bills by using cuttings.

Through carelessness almost criminal, the gas was left on in the vaults of the Canal bank at Elmira, N. Y., Saturday night. John Arner, the president, with a lighted cigar in his mouth, had been smoking and was asleep when the gas began to leak. The vaults were filled with gas, and the fire broke out. The vaults were filled with gas, and the fire broke out. The vaults were filled with gas, and the fire broke out.
